*Indian Standard*

## **SPECIFICATION FOR SEWAGE SCREENS**

### **1. SCOPE**

**1.1** This standard covers the materials, dimensions and methods of construction of screens used in treatment plants for domestic as well as municipal sewages, the latter often containing a variety of industrial wastes.

**1.2** This standard shall also be applicable to wholly industrial wastes where screens are intended to be used.

**1.3** The standard does not cover fine screens and communitors since these are not yet in common use at present in India.
