BUREAU OF INDIAN STANDARDS

Program of Work

ETD 43: Standardization of Environmental Aspects for Electrical and Electronic Products

Scope: To prepare the necessary guidelines, basic standards, in the environmental area, in close

cooperation with product committees, which remain autonomous in dealing with the environmental aspects relevant to their products; To liaise with product committees in the elaboration of environmental requirements of product standards in order to foster common technical approaches and solutions for similar problems and thus assure consistency in

standards.

Liaison: **IEC TC-111 (P):** Environmental standardization for electrical and electronic products and

systems
