

1) Sectional Committee No. & Title:	ETD 14 - Electrical Wiring Accessories
2) IS No:	IS 9537 : Part 3 : 1983
3) Title:	Specification for conduits for electrical installations: Part 3 rigid plain conduits of insulating materials
4) Date of Previous Review:	Not Review

Review Analysis:**5.1) Status of standard(s), if any from which assistance had been drawn in the formulation of this IS.**

1. Standard (No.)	2. Standard (Title)	3. Whether the standard has since been revised	4. Major changes	5. Action proposed
IEC 614-2-2	Specifications for conduits for electrical installations, Part 2 Particular specifications for rigid plain conduits of insulating materials	yes	As per the attached draft and recommendations	As per the attachment

5.2) Status of standard referred in the standard.

1. Referred standards (No.)	2. Referred standards (Title)	3. Since revised standard number of the corresponding standard	4. Changes in the referred Standards since last review of standard	5. Changes in the referred standard which are affecting the standard under review	6. Action proposed
IS 9537 : part 3: 1983	Specifications for Conduits for electrical installation	No	No	NA	As per the attachment

5.3) Any other standards available related to the subject & scope of the standard being reviewed (International/regional/other national/association/consortia, etc or of new or revision of existing Indian Standard).

1. Standard (No.)	2. Standard (Title)	3. Provisions that could be relevant while reviewing the IS	4. Action proposed
IEC 61386:part1	Conduit systems for cable management – Part 1: General requirements	As per the attachment	As per the attachment
IEC 61386:part 21	Conduit systems for cable management – Part 21: Particular requirements – Rigid conduit systems	As per the draft	As per the draft

5.4) Technical comments on the standard received, if any.

1. Source	2. Clause of IS	3. Comment	4. Action proposed
No entry made in this table			

5.5) Information available on relevant technical developments

1. Source	2. Development	3. Relevant clause of the IS under review that is likely to be impacted (Clause & IS No.)	4. Action proposed
General	The equivalent standard has been revised	As per the attachment	As per the attachment

5.6) Issues arising out of changes in any related IS or due to formulation of new Indian Standard.

1. Related IS (revised or new)	2. Related IS Title	3. Provision in the IS under review that would be impacted & the clause no. or addition of new clause/provision	4. Changes that may be necessary in the Standards under review	5. Action proposed
No entry made in this table				

5.7) Any consequential changes to be considered in other IS.

1. Related IS to get impacted	2. Related IS Title	3. Requirements to be impacted
No entry made in this table		

6) Any other observation:

The equivalent standard IEC 614-2-2 has been revised to IEC 61386-21. The equivalent standard of the referred standard IS 9537:part 1 for method of test has also been revised to IEC 61386:part 1. Gap analysis has been done to incorporate changes in the standard with respect to the equivalent standards. The pdraft is attached for consideration please. Recommendation for changes in the referred standard is also attached for kind consideration

7) Upload Supporting Document(s)

7.1) ARP Report	recommendations for part 1 of IS 9537.docx
7.2) Draft Document	9537 - working draft.docx

8) Recommendations - On the basis of the analysis of the info available as mentioned above consideration of sectional committee is solicited on the following aspects of the IS under review:

The equivalent standard IEC 614-2-2 has been revised to IEC 61386-21. The equivalent standard of the referred standard IS 9537:part 1 for method of test has also been revised to IEC 61386:part 1. Gap analysis has been done to incorporate changes in the standard with respect to the revised equivalent standards. The pdraft of Is 9537:part3 and recommendations for changes in the referred standard is attached for kind consideration please.
