Noida, Uttar Pradesh – 201309

NATIONAL INSTITUTE OF TRAINING FOR STANDARDIZATION

BUREAU OF INDIAN STANDARDS

Ministry of Consumer Affairs, Food & Public Distribution
Government of India

About BIS

Bureau of Indian Standards (BIS), being *the National Standards Body* of the country, discharges a multitude of functions and services for enhancing the quality ecosystem in the country. The activities of BIS include standards formulation at national and international level, conformity assessment (Product Certification, Systems Certification, Registration and Hallmarking), testing, training and promotion of standards. All these activities are carried out through its network of offices at its headquarters, regional and branch offices and laboratories spread throughout the country.

About NITS

National Institute of Training for Standardization (NITS), the training arm of BIS, was set up under the aegis of BIS in 1995 to meet the growing needs and expectations of the industry for quality training in the fields of standardization, quality assurance, management systems, certification, laboratory testing, etc.

Since then, NITS has been organizing various types of training programmes for government, academia, industry as well as consumer bodies and common man. NITS has also been organizing various International Training Programmes for Developing Countries of Asia, Africa, Europe and Latin & South America. The programmes are conducted by a team of well-experienced, qualified and trained faculty.

The annual Training Calendar for FY 2026-27 can be accessed at:

https://www.bis.gov.in/training-2/annual-training-calendar/

On many occasions, client organizations of NITS require training courses customized for their officers/staff and conducted at their premises/online. NITS caters to these requirements by imparting training at the premises of the clients on request. Such customized programmes conducted on specific request of client organizations at their premises/online are called ‘Off-Campus Programmes’.

Over the years, NITS has acquired the reputation of being a leading institute in the country offering training in the field of standardization, conformity assessment and quality.

About the Course

Artificial intelligence (AI) is increasingly applied across all sectors utilizing information technology and is expected to be one of the main economic drivers. A consequence of this trend is that certain applications can give rise to societal challenges over the coming years.

IS/ISO/IEC 42001:2023 provides a systematic framework for managing artificial intelligence within an organization responsibly, enabling organizations to perform their roles with respect to AI systems (e.g., to use, develop, monitor, or provide AI systems). It enables organizations to identify and address AI-related risks and opportunities in a manner appropriate to their business needs and to strengthen their AI practices through continual improvement and risk-based governance.

The five-day Lead Auditor Course on Artificial Intelligence Management System (AIMS) is designed to develop participants' understanding of IS/ISO/IEC 42001:2023 and their ability to apply its requirements during audits. The programme combines interactive sessions, practical exercises, and case-based activities covering audit planning, evidence gathering, evaluation of AI risks and controls, reporting of audit results, and follow-up of audit findings.

The course also introduces the application of IS/ISO 19011 auditing principles and techniques for conducting effective AIMS audits. Participants will gain the knowledge and practical capability required to evaluate an organization's AIMS and assess its effectiveness in managing AI risks and ensuring responsible AI deployment.

Learning Objectives

Participants will be able to:

- ✓ Understand the structure and requirements of IS/ISO/IEC 42001:2023.
- ✓ Understand the key concepts and principles of an Artificial Intelligence Management System (AIMS).
- ✓ Understand the roles and responsibilities of an internal auditor.
- ✓ Plan, conduct and report an AI management system audit.
- ✓ Identify and assess AI-related risks and opportunities.
- ✓ Understand the requirements related to context, leadership, communication, documented information, operational planning and performance evaluation.
- ✓ Understand the process for handling nonconformities and corrective actions.
- ✓ Develop confidence in facing and conducting AI management system audits.
- ✓ Support effective implementation and continual improvement of an AIMS.

Training Methodology

- ✓ Classroom-based training with a combination of lectures and presentations.
- ✓ Interactive sessions with expert trainers.
- ✓ Practical exercises and case studies based on real-life information security scenarios.
- ✓ Group discussions and audit-based activities.
- ✓ Practical application of auditing principles and techniques.
- ✓ Soft copy of all training material.

Who Should Attend?

This programme is ideally suited for:

- ✓ Internal and external auditors seeking to specialize in AI Management System auditing.
- ✓ Government officials involved in AI governance and associated compliance, risk management, policy formulation, etc.
- ✓ Managers, consultants and professionals responsible for implementing, maintaining or improving an AIMS.
- ✓ AI governance, risk and compliance professionals.
- ✓ AI developers, solution architects and technology professionals involved in the development and implementation of AI solutions.
- ✓ Professionals involved in analysing business requirements for AI implementation.
- ✓ Expert advisors and consultants in AI management and governance.
- ✓ Professionals seeking to build a career in AI management systems, auditing, risk management and responsible AI.

Career Benefits

By attending this programme, participants will:

- ✓ Strengthen their understanding of IS/ISO/IEC 42001:2023.
- ✓ Build expertise in AI Management Systems.
- ✓ Develop skills for planning, conducting and reporting audits.
- ✓ Develop competence in internal auditing and management review.
- ✓ Build confidence in facing AI management system audits.
- ✓ Enhance their professional profile in the emerging field of AI governance, risk management and responsible AI.

Certificate

Participants who successfully complete the programme and qualify in the prescribed assessment will be awarded a Certificate of Successful Completion carrying the Bureau of Indian Standards (BIS) logo.

Fee and Discount

➢ The course fee is **Rs. 21,000/- + 18% GST per participant**.

➢ **10% discount** for 2–5 participants nominated from the same organization.

➢ **15% discount** for more than 5 participants nominated from the same organization.

➢ Accommodation and transportation charges have to be borne by the participants.

Date & Venue

The course will be conducted by NITS, Noida during:

30 November – 04 December 2026

at its campus:

National Institute of Training for Standardization (NITS)
A-20 & 21, Institutional Area, Sector 62
Noida – 201301, Uttar Pradesh

How to Apply?

Application has to be made through the **BIS Training Portal** by following the steps mentioned below:

➢ **VISIT** the e-BIS Website: **www.manakonline.in**

➢ **CLICK** on the **"Training"** Head.

➢ **LOGIN** by clicking on the blue **"LOGIN"** button on the top right corner.

➢ **SIGN UP** by clicking on **"SIGNUP"** on the Member Login Page if you are not a member; otherwise **"SIGN IN"** using your credentials.

➢ **FILL OUT** all the required fields and click on **"REGISTER"** to complete the registration process.

➢ **CHOOSE** the course you want to apply for, fill in the required information and **PAY** the requisite fee.

Why Choose NITS as Your Training Partner?

➢ Advantage of getting trained by the **Bureau of Indian Standards (BIS), the National Standards Body of India.**

➢ Rich pool of trainers with extensive experience in auditing and management systems.

➢ Course contents developed by subject matter experts.

➢ Expertise of BIS in conducting professional training programmes.

➢ Focus on practical training using real-life scenarios and case studies.

➢ Availability of customized training solutions.

➢ Competitive pricing and corporate discounts.
