Dear Sir/Madam,

**Kind Attn : Quality Manager/ Technical Manager/ Laboratory Personnel/Internal Auditors**

As you are already aware, in the *global* scenario of Conformity Assessment, Accreditation is playing important role in facilitating trade and commerce within and between all countries of the world. Accreditation bridges the gap in the testing capacity between different countries and help in bridging the trade barrier. It advances the national economy, benefit the health, safety and welfare of the public, and assist and protect consumers. The requirements of Accreditation of Laboratories in every country require all the laboratories undergoing accreditation to report the results that are comparable and are acceptable. This is to say - ‘**tested once, accepted everywhere**’.

**Bureau of Indian Standards (BIS)** is the National Standard Body of India charged with the responsibility of capacity building in the nation by way of providing quality training to industries, corporates, consumers and other stakeholders through its training wing that is **National Institute of Training for Standardization (NITS)** located at **Noida**. Among the gamut of training programme we have training programme on **Medical Laboratories Quality Systems and Internal Audit as per ISO/IS 15189:2022** which fulfils the need for laboratories seeking accreditation to NABL. NITS is conducting the **2-day Training Programme on " Transition to IS/ISO 15189 : 2022 "** during **26-27 February 2024** at **NITS, Noida**. **Certificate of participation would also be provided.**

This course is designed for senior medical laboratory personnel involved in the management and establishment of Medical Laboratory Quality Systems and internal audit programmes for their laboratories as required by NABL Criteria & International Standard **IS/ISO 15189: 2022**.

### **Who Should Attend ?**

▪Laboratory personnel engaged in Medical Laboratories ▪ Lab Directors, Quality Managers, Technical Managers ▪ Top Management of medical laboratories ▪ ISO 15189 consultants and experts ▪ Anyone interested to acquire knowledge and become Internal Auditor in Medical Laboratories.

**This programme is suitable for participants who are already trained for IS/ISO 15189:2012.**

**The course shall cover:**

- a) An understanding of IS/ISO 15189:2022. Workshop/Exercise(s) and case studies are special features.  
**Need for Revision and Key Changes in IS/ ISO 15189:2022.** The main changes are as follows:  
— Alignment with **ISO/IEC 17025:2017** resulted in the management requirements now appearing at the end of the document;  
— Requirements for **point-of-care testing (POCT)**, previously in ISO 22870, have been incorporated;  
— Increased emphasis on **risk management**
- b) Developing and understanding on quality system documentation for the Medical Laboratories.
- c) Techniques of conducting Internal Audit and reporting of the internal audit findings.
- d) Management review and its contents.

**On completion, participants will be able to:**

- a) Understand and implement all requirements (General, Structural, Governance, Resources, Process, and Management system)
- b) Confidently develop and implement ISO 15189: 2022 quality system and risk management
- c) Know the road map to seek ISO 15189:2022 accreditation (including the documentation required)
- d) Develop and implement a quality system, compatible with **IS/ISO 15189: 2022**.

**You are requested to nominate your Medical Laboratory Personnel/Internal Auditors for the above programme.** The Training Programme is designed for 20-25 participants; therefore, seats would be available for those registering with payment in chronological order.
