Document Number: CHD 34 (25466) WC

Title of the document: MECHANISM FOR FINANCING LOCAL ADAPTION TO CLIMATE CHANGE - PERFORMANCE-BASED CLIMATE RESILIENCE GRANTS REQUIREMENTS AND GUIDELINES

Document Type: New Indian Standard

This document has the following salient features which may require specific attention for your valuable comments:

1) This standard establishes an approach and methodology for a country-based mechanism to channel climate finance to subnational authorities to support climate change adaptation and to increase local resilience thereby contributing to the achievement of the goals of the 2015 Paris Agreement of the United Nations Framework Convention on Climate Change (UNFCCC) and UN Sustainable Development Goals (SDGs). The country-based mechanism uses performance-based climate resilience grants (PBCRGs) which ensure programming and verification of climate change expenditures at the local level, offering strong incentives for performance improvements in enhanced resilience.

2) This standard applies to organizations such as national and subnational authorities, donors, companies, financial institutions, and international organizations that are involved in implementing a country-based mechanism for channeling climate finance to subnational authorities to support climate change adaptation and resilience.
