To,

All concerned

Dear Madam/Sir,

Document Number: CHD 34 (25470) WC

Title of the document: ENVIRONMENTAL MANAGEMENT - GUIDELINES FOR ESTABLISHING GOOD PRACTICES FOR COMBATTING LAND DEGRADATION AND DESERTIFICATION PART 1 GOOD PRACTICES FRAMEWORK

Document Type: New Indian Standard

This document has the following salient features which may require specific attention for your valuable comments:

- 1) Combatting land degradation is critical to achieving sustainable development and hence good practice programs need to seek to attain a balance between environmental, social, and economic goals. These goals are interdependent and need to be mutually reinforcing. For example, the capacity of individual land managers and communities to implement good practices for combatting land degradation can be limited by immediate challenges of poverty and hunger. Conversely, combatting land degradation will contribute to greater socio-economic as well as environmental resilience.
- 2) This Standard defines a framework for identifying good practices in land management, based on an assessment of the drivers of land degradation and risks associated with current and past practices. Guidance on monitoring and reporting implementation of good practices is also provided. It does not include management of coastal wetlands.
