To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Information Systems Security And Privacy Sectional Committee, LITD 17. Please [click here](#) to view the document.

Document Number : LITD 17 (28863) WC

Title of the document : Information security cybersecurity and privacy protection General principles requirements and guidance for security evaluation of biometric systems First Revision

Document Type : Revision of Indian Standard (IS/ISO/IEC 19792 : 2009)

This document has following salient features which may require specific attention for your valuable comments:

1) This document defines various areas that are important to consider during a security evaluation of a biometric system. These areas are represented by the following clauses: — Clause 5 explains the outline of security evaluation of biometric systems; — Clause 6 overviews the threats and vulnerabilities to biometric systems that should be considered for the evaluation; — Clause 7 describes the evaluation of biometric specific vulnerabilities related to recognition performance; — Clause 8 deals with the evaluation of biometric specific vulnerabilities related to presentation attack detection; — Clause 9 overviews the evaluation of privacy. This document is relevant to both evaluator and developer communities. It shows how a security evaluation of a biometric system is performed. It serves to inform developers of the requirements for biometric security evaluations to help them prepare for security evaluations.

Please examine the document and share your comments regarding further improvement in the document.

Last date for sharing the comments is : 30 November 2025

The comments should be shared in the prescribed template through this portal only; and the comments so received shall be taken up by the Sectional Committee for necessary action.
