To,

All concerned

Dear Madam/Sir,

The following document has been prepared by the Safety of Machinery Sectional Committee, MED 40. Please [click here](#) to view the document.

Document Number : MED 40 (24384) WC

Title of the document : Safety of machinery Relationship with ISO 12100 Part 1: How ISO 12100 relates to type-B and type-C standards

Document Type : New Indian Standard

This document has following salient features which may require specific attention for your valuable comments:

1) This document provides assistance to the designer/manufacture of machinery and related components as to how the system of existing type-A, type-B and type-C machinery safety standards should be applied in order to design a machine to achieve a level of tolerable risk by adequate risk reduction. This document explains the general principles of ISO 12100 and how this type-A standard is used for practical cases in conjunction with type-B and type-C machinery safety standards. This document provides assistance to standards-writing committees on how ISO 12100 and type-B and type-C standards relate and explains their function in the risk assessment and risk reduction process according to ISO 12100. This document includes an overview of existing categories of type-B standards to assist standards readers and writers to navigate the many standards.

Please examine the document and share your comments regarding further improvement in the document.
