Ms.Neha Agarwal
Scientist 'D'/Joint Director

Dear Madam,

I had sent an email on 20th June, where I had written "Please include the third receptor (ipRGCs) of Eye as described in Part11 Human Centric Lighting Page no.4 in VISION part of Part 2 Physics of Light, inserting a diagram of this 1% Ganglion cells' position in Retina of people." This has not been included till now.

In Part 15. Science of Ultra violet....., in page no,6 & 7,there are two yellow highlighted parts.this needs correction.

In Part 13, Adverse effects....., in page 11, Fig.13 has been superimposed twice.Please check it.

Take necessary action to correct these 3 parts as soon as possible.

Please consider the other Parts to be ready for Printing.

Thanks & Regards.

Dear Madam,

This is with reference to the revision of the National Lighting Code, SP 72. As you are aware, the wide circulation period has concluded, and the comments received during the stage have been duly addressed and incorporated, as appropriate.

The following chapters have now been finalized and are ready for printing:

1. Part 1 'Lighting Vocabulary'
2. Part 2 'Physics of Light'
3. Part 3 'Electric Light Sources & Their Accessories'
4. Part 11 'Human Centric Lighting'
5. Part 12 'Connectivity for Lighting Systems'
6. Part 13 'Adverse Effects of Lighting'
7. Part 14 'Horticulture Light'
8. Part 15 'SCIENCE OF ULTRA VIOLET AND ULTRAVIOLET GERMICIDAL IRRADIATION APPLICATIONS FOR HOSPITALS'

You are kindly requested to review and approve the above chapters for printing in your capacity as Chair, ETD 49.

The remaining chapters will be shared in due course, as and when they are ready for printing.

Thanks & regards,

Neha Agarwal
