NATIONAL FOREWORD

(Formal clause shall be added later)

This document gives guidance for any kind of organization. It describes the main terms and definitions, a circular economy vision, the circular economy principles, provides practical guidance on actions that contribute to a circular economy and guidance to implement a circular economy in any kind of organization.

It is applicable to organizations seeking to understand and commit or contribute to a circular economy while contributing to sustainable development. These organizations can be either private or public, acting individually or collectively, regardless of type or size, and located in any jurisdiction, or position within a specific value chain or value network.

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- Wherever the words 'International Standard' appears referring to this standard, they should be read as 'Indian Standard'.
- Comma (,) has been used as a decimal marker, while in Indian Standards, the current practice is to use a point (.) as the decimal marker.
