NATIONAL FOREWORD

This Indian Standard which is identical with IEC 60335-2-2 “Household and similar electrical appliances – Safety – Part 2-2: Particular requirements for vacuum cleaners and water-suction cleaning appliances” issued by the International Electrotechnical Commission (IEC) will be adopted by the Bureau of Indian Standards on the recommendation of the Electrical Appliances Sectional Committee.

This standard was first published in 1997. This revision has been undertaken to harmonize with the latest version of IEC 60335-2-2: 2019.

This standard covers the safety requirements of vacuum cleaners and water-suction cleaning appliances.

This part 2 is to be used in conjunction with IS 302-1: 2023, Safety of Household and Similar Electrical Appliances Part 1 General Requirements (Seventh Revision) [Doc: ETD 32 (22184)WC (*Under preparation*)].

NOTE 1: When "Part 1" is mentioned in this standard, it refers to IS 302-1.

This part 2 supplements or modifies the corresponding clauses in IS 302-1, so as to convert that publication into the Indian standard: Safety requirements for vacuum cleaners and water-suction cleaning appliances.

When a particular subclause of Part 1 is not mentioned in this part 2, that subclause applies as far as is reasonable. When this standard states "addition", "modification" or "replacement", the relevant text in Part 1 is to be adapted accordingly.

NOTE 2— The following numbering system is used:

- a) subclauses, tables and figures that are numbered starting from 101 are additional to those in Part 1;
- b) unless notes are in a new subclause or involve notes in Part 1, they are numbered starting from 101, including those in a replaced clause or subclause;
- c) additional annexes are lettered AA, BB, etc.

NOTE 3— The following print types are used:

- a) requirements: in roman type;

- b) test specifications: in italic type;
- c) notes: in small roman type.

The text of IEC Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain terminologies and conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker, while in Indian Standards the current practice is to use a point (.) as the decimal marker.

In this standard, reference appears to International Standards for which Indian Standards also exists. The corresponding Indian Standards, which are to be substituted, are listed below along with their degree of equivalence for the editions indicated:

| <i>International Standard</i> | <i>Corresponding Indian Standard</i> | <i>Degree of Equivalence</i> |
|--|--|---|
| IEC 60335-1, Household and similar electrical appliances – Safety – Part 1: General requirements | [Doc: ETD 32 (22184)WC <i>Under preparation</i>] IS 302-1: 2023, Safety of Household and Similar Electrical Appliances Part 1 General Requirements (Seventh Revision) | Identical with IEC 60335-1 : 2020 |
| IEC 60584-1, Thermocouples – Part 1: EMF specifications and tolerances | IS 16923 (Part 1): 2018 Thermocouples Part 1 EMF Specifications and Tolerances (First Revision) | Identical with IEC 60584-1: 2013 |
| ISO 216, Writing paper and certain classes of printed matter – Trimmed sizes – A and B series, and indication of machine direction | IS 1064: 1980 Specification For Paper Sizes (Second Revision) | Modified/ Technically Equivalent to ISO 216: 1975 |
| ISO 6344-2, Coated abrasives – Grain size analysis – Part 2: Determination of grain size distribution of macrogrits P12 to P220 | IS 15287 (Part 2): 2003 Coated abrasives - Grain size analysis: Part 2 determination of grain size distribution of macrogrits P12 to P220 | Identical with ISO 6344-2:1998 |
| ISO 7010:2011, Graphical symbols – Safety colours and safety signs – Registered safety signs | IS 16451: 2018, Graphical Symbols- Safety Colours and Safety Signs- Registered Safety Signs | Identical with ISO 7010: 2011 |

The technical committee has reviewed the provisions of the following international standards referred in this adopted standard and decided that they are acceptable for use in conjunction with this standard.

| <i>International Standard</i> | <i>Title</i> |
|-------------------------------|---|
| <i>IEC TS 62885-1: 2018</i> | <i>Surface cleaning appliances – Part 1: General requirements on test material and test equipment</i> |
| <i>ISO 14688-1</i> | <i>Geotechnical investigation and testing – Identification and classification of soil– Part 1: Identification and description</i> |

Only the English language text has been retained while adopting it in this Indian Standard, and as such, the page numbers given here are not the same as in the IEC Publication.

For the purpose of deciding whether a particular requirement of this standard is complied with the final value, observed or calculated expressing the result of a test or analysis shall be rounded off in accordance with IS 2: 2022 ‘Rules for rounding of numerical values (revised)’. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

Please send your comments to our department email, in case you missed the deadline mentioned in the National Foreword. Comments received before the upcoming Sectional Committee meeting of ETD 32 Electrical Appliances will be considered for discussion.

Note: The technical content of the document is not available on website. For details, please refer the corresponding of IEC 60335-2-2: 2019 or kindly contact:
