**NATIONAL FOREWORD**

*(Adoption clause will be added later)*

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are however not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'
- Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to certain International Standards for which Indian Standards also exist. The corresponding Indian Standards which are to be substituted in their respective places are listed below along with their degree of equivalence for the editions indicated:

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 2157, Dentistry - Nominal diameters and designation code numbers for rotary instruments	IS/ISO 2157 : 2016, Dentistry - Nominal diameters and designation code numbers for rotary instruments <i>(First Revision)</i>	Identical
ISO 6360-1, Dentistry — Number coding system for rotary instruments — Part 1: General characteristics	IS/ISO 6360-1 : 2004, Dentistry - Number coding system for rotary instruments Part 1 General characteristics	Identical

ISO 6360-2, Dentistry — Number coding system for rotary instruments — Part 2: Shapes IS/ISO 6360-2 : 2004, Dentistry - Identical Number Coding System For Rotary Instruments Part 2 Shapes

## **Scope**

This part of ISO 6360 specifies the code numbers for specific characteristics of rotary diamond instruments and diamond-coated discs for use in dentistry. This three-digit number forms the fourth group of three digits in the 15-digit overall number, the principles of which are explained in ISO 6360-1 and ISO 6360-2.

This part of ISO 6360 also gives a three-digit number which in addition to the 15-digit code number may be used to provide additional information for diamond instruments and diamond-coated discs, at the discretion of the manufacturer.
