NATIONAL FOREWORD

*(Adoption clause will be added later)*

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are however not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

## Scope

This part of ISO 8669 defines terms used in International Standards dealing with urine collection bags; related medical terms are not defined.

The terms do not individually or collectively define or recommend a product of a specific design, style or size.

NOTE - If a term has one or more permitted Synonyms, the terms are listed in order of preference; deprecated synonyms are followed by the word “deprecated”. Alphabetical indexes of the terms in English and French are provided.
