NATIONAL FOREWORD

(Formal clauses will be added later)

The text of the ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to certain International Standards for which Indian Standards also exist. The corresponding Indian Standards, which are to be substituted in their respective places, are listed below along with their degree of equivalence for the editions indicated:

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 3170, Petroleum liquids — Manual sampling	IS 1447 (Part 1) : 2021 Methods of Sampling of Petroleum and its Products Part 1 Manual Sampling (<i>second revision</i>)	Not Equivalent

ISO 3722, Hydraulic fluid power - Fluid sample containers - Qualifying and controlling cleaning methods	IS 13569 : 1993 Hydraulic fluid power —fluid sample containers — Qualifying and controlling cleaning methods	Identical
ISO 4021, Hydraulic fluid power — Particulate contamination analysis — Extraction of fluid samples from lines of an operating system	IS 13570 : 2000 Hydraulic fluid power — Particulate contamination analysis — Extraction of fluid samples from lines of an operating system (<i>first revision</i>)	Identical

In reporting the result of a test or analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with IS 2 : 2022 ‘Rules for rounding off numerical values (*second revision*)’.

NOTE — The technical content of this document has not been enclosed as this is identical with the corresponding ISO Standard. For details, please refer to ISO 11365: 2017 or kindly contact:
