Draft Indian Standard

**SOLID BIOFUELS — DETERMINATION OF FINES
CONTENT IN PELLETS**

(First Revision of IS 17656)

(ICS 75.160.40; 27.190)

Solid Mineral Fuels and Solid Biofuels
Sectional Committee, PCD 07

Last date for Comments:
30 November 2025

NATIONAL FOREWORD

(Formal clauses to be added later)

This standard was first published in 2021, as an adoption of ISO 18846 : 2016 'Solid biofuels — Determination of fines content in samples of pellets'. This revision has been brought out to align it with the latest version of ISO 5370 : 2023 'Solid biofuels — Determination of fines content in pellets', as ISO 18846 has been withdrawn and replaced by ISO 5370.

The text of ISO standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

The Committee has reviewed the provisions of the following International Standards referred in this adopted standard and has decided that they are acceptable for use in conjunction with this standard:

<i>International Standard</i>	<i>Title</i>
ISO 3310-1	Test sieves — Technical requirements and testing — Part 1: Test sieves of metal wire cloth
ISO 3310-2	Technical requirements and testing — Part 2: Test sieves of perforated metal plate
ISO 16559	Solid biofuels — Vocabulary
ISO 18135	Solid biofuels — Sampling
ISO 21945	Solid biofuels — Simplified sampling method for small scale applications

In reporting the result of a test or analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with IS 2 : 2022 'Rules for rounding off numerical values (*second revision*)'.

NOTE — The technical content of this document has not been enclosed as this is identical with the corresponding ISO Standard. For details, please refer to ISO 5370 : 2023 or kindly contact:
