Draft Indian Standard

Mechanical Vibration — Vibration of Rotating Machinery Equipped with Active Magnetic Bearings — Part 1 Vocabulary

### ICS 01.040.17; 17.160

Bearings Sectional Committee, PGD 13	Last date for Comment: 30/04/2024
--------------------------------------	-----------------------------------

#### NATIONAL FOREWORD

This Indian Standard which is identical with ISO 14839-1 : 2018 'Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings — Part 1 Vocabulary' issued by the International Organization for Standardization (ISO) was adopted by the Bureau of Indian Standards on the recommendation of the Bearings Sectional Committee and approval of the Production and General Engineering Division Council.

Other parts in this series are:

Part 2	Mechanical vibration — Vibration of rotating machinery equipped with active magnetic
	bearings — Part 2 Evaluation of vibration

- Part 3 Mechanical vibration Vibration of rotating machinery equipped with active magnetic bearings Part 3 Evaluation of stability margin
- Part 4 Mechanical vibration Vibration of rotating machinery equipped with active magnetic bearings Part 4 Technical Guidelines
- Part 5 Mechanical vibration Vibration of rotating machinery equipped with active magnetic bearings Part 5 Touch Down Bearings

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

### Doc No.: PGD 13 (24932) WC February 2024

- a) Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

For convenience of reference, this vocabulary is supplemented by an alphabetical index of all the terms, each term being identified by its clause number in the text. This will help the reader to refer back to the main vocabulary and its definition.
