**Mechanical Vibration — Vibration of Rotating Machinery  
Equipped with Active Magnetic Bearings —  
Part 5 Touch Down Bearings**

ICS 17.160

Bearings Sectional Committee, PGD 13

Last date for Comment: 30/04/2024

**NATIONAL FOREWORD**

This Indian Standard which is identical with ISO 14839-5 : 2022 ‘Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings — Part 5 Touch down bearings’ issued by the International Organization for Standardization (ISO) was adopted by the Bureau of Indian Standards on the recommendation of the Bearings Sectional Committee and approval of the Production and General Engineering Division Council.

Other parts in this series are:

- Part 1 Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings — Part 1 Vocabulary
- Part 2 Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings — Part 2 Evaluation of vibration
- Part 3 Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings — Part 3 Evaluation of stability margin
- Part 4 Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings — Part 4 Technical Guidelines

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to the following International Standard for which Indian Standard also exists. The corresponding Indian Standard which is to be substituted in its place is listed below along with its degree of equivalence for the edition indicated.

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 2041 Mechanical vibration, shock and condition monitoring — Vocabulary	IS/ISO 2041 : 2018 Mechanical vibration, shock and condition monitoring — Vocabulary ( <i>first revision</i> )	Identical
ISO 14839-1 Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings Part 1: Vocabulary	Doc. No. PGD 13 (24932) Mechanical vibration — Vibration of rotating machinery equipped with active magnetic bearings: Part 1 Vocabulary	Identical
