Transport Packages, Packaging Codes and Pallets Sectional Committee, TED 24

## NATIONAL FOREWORD

This draft Indian Standard which is identical with ISO 21067-2:2015 ‘Packaging — Vocabulary — Part 2: Packaging and the environment terms’ issued by International Organization for Standardization (ISO), will be adopted by the Bureau of Indian Standards on the recommendations of Transport Packages, Packaging Codes and Pallets Sectional Committee and approval of the Transport Engineering Division Council.

IS 16961 was first published in 2018, which was based on ISO 21067: 2007. This first revision of the standard is undertaken to align it with the latest version of ISO 21067-2:2015.

This standard is one of the series of standards on ‘Packaging — Vocabulary’. Other standard is:

### Part 1: General terms

The text of ISO standard is proposed for publication as an Indian Standard without deviations. Certain terminologies and conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma (,) has been used as a decimal marker, while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. The Bureau of Indian Standards shall not be held responsible for identifying any or all such patent rights.

**SCOPE**

This part of ISO 21067 defines terms used in the field of packaging and the environment. It does not include terminology already covered by ISO 21067-1 or other International Standards such as ISO 14050.

**FOR COMPLETE TEXT OF THE DOCUMENT KINDLY REFER ISO 21067-2: 2015 or CONTACT:**
