Indian Standard

**GUIDELINES FOR DE-ICING SYSTEM FOR
HYDRAULIC INSTALLATIONS**

(*First Revision*)

1 SCOPE

This standard provides general guidance for the de-icing systems that can be employed to prevent ice formation in the hydromechanical installations of hydraulic structures located in areas where low winter temperatures cause heavy ice formation. These include dams, intake structures, trash racks, spillway gates, etc.

2 REFERENCE

The following Indian Standard contain provision which through reference in this text constitute provisions of this standard. At the time of publication the edition indicated was valid. All standards are subject to revision and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent editions of the standard indicated below :

<i>IS No.</i>	<i>Title</i>
6206 : 1985	Guide for selection, installation and maintenance of air compressors upto 10 bars (<i>first revision</i>)
