

Indian Standard

**JOINTS IN CONCRETE LINING OF CANALS –
SEALING COMPOUND – SPECIFICATION**

1 SCOPE

1.1 This standard specifies requirements for sealing compound for joints in concrete lining canals.

1.2 This standard does not, however, cover sealing compounds intended for use in sealing joints in concrete roads, runways, bridges and shelter structures for which IS 1834 : 1984 may be referred.

2 REFERENCES

2.1 The Indian Standards listed below are necessary adjuncts to this standard.

<i>IS No.</i>	<i>Title</i>
1203 : 1978	Methods of testing tar and bituminous materials; Determination of penetration (<i>first revision</i>)
1205 : 1978	Methods of testing tar and bituminous materials; Determination of softening point (<i>first revision</i>)
1209 : 1978	Methods of testing tar and bituminous materials; Determination of flash points and fire point (<i>first revision</i>)
1211 : 1978	Methods of testing tar and bituminous materials: Determination of water content (Dean and Stark method) (<i>first revision</i>)
1834 : 1984	Specification for hot applied sealing compounds for joints in concrete (<i>first revision</i>)
