

SYNOPSIS OF INDIAN STANDARDS

Number and Title of the Indian Standard: **ISO 11121:2017/ Doc. No. 13528**

Recreational diving services —Requirements for introductory programmes to scuba diving

a) Scope:

This document specifies minimum programme content requirements for training organizations for introductory scuba experiences in recreational scuba diving. Under no conditions are these requirements considered to be a standard for the training and qualification of scuba divers.

This document applies to programmes that include participants being taken into an open water environment. It does not apply to programmes that are exclusively conducted in a confined water environment (e.g. swimming pools).

This document also specifies the conditions under which this service is to be provided, which supplement the general requirements for recreational diving services specified in ISO 24803.

b) Salient features of content:

The programme specified in this document is used to introduce a non-diver to recreational scuba diving by means of a supervised, controlled dive experience and to encourage the participant to seek further training.

The introductory diving programme does not result in any qualification, but is experiential in nature; consequently, in-depth knowledge of diving academics and skills is not necessary. Participants are taught only what is required of them to experience scuba diving under direct supervision of a scuba instructor.

c) Types/grades/classes, if any covered in the standard:

Not Applicable

d) Disclaimer (to be automatically provided by the program/software)
