# **MICROGRAPHICS — VOCABULARY**

## **PART 2 IMAGE POSITIONS AND METHODS OF RECORDING**

### **1.1 Scope**

This part of ISO 6196 is intended to facilitate international communication in micrographics. It presents, in two languages, terms and definitions of selected concepts relevant to the field of information processing and identifies relationships between the entries.

In order to facilitate their translation into other languages, the definitions are drafted so as to avoid, as far as possible, any peculiarity attached to a language.

### **1.2 Normative References**

The following standards contain provisions which, through reference in this text, constitute provisions of this part of ISO 6196. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this part of ISO 6196 are encouraged to investigate the possibility of applying the most recent editions of the standards indicated below. Members of IEC and ISO maintain registers of currently valid International Standards.
