MICROGRAPHICS — VOCABULARY

PART 3 FILM PROCESSING

1.1 Scope

This part of ISO 6196 is intended to facilitate international communication in micrographics. It presents, in two languages, definitions of selected concepts used in micrographics and identifies relationships between the entries.

In order to facilitate their translation into other languages, the definitions are drafted so as to avoid, as far as possible, any peculiarity attached to a language

1.2 Normative references

The following standards contain provisions which, through reference in this text, constitute provisions of this part of ISO 6196. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this part of ISO 6196 are encouraged to investigate the possibility of applying the most recent editions of the standards indicated below.
