Indian Standard
SPECIFICATION FOR
COTTON LINING CLOTH

0. FOREWORD

0.1 This Indian Standard (First Revision) was adopted by the Indian Standards Institution on 15 November 1979, after the draft finalized by the Cotton and Cotton Products Sectional Committee had been approved by the Textile Division Council.

0.2 This standard, originally published in 1960, has been revised to specify the colour fastness rating to organic solvents. The requirements in respect of scouring loss and shrinkage or elongation have been modified.

0.3 In this revision the requirements of lining cloth of warp satin weave as specified in IS : 1782-1961* have also been covered and subsequently this standard will be withdrawn.

0.4 To familiarize the industry with International System of Units (SI Units) the basic SI Units as well as the recommended SI Units for use in the Textile industry are given in Appendix A.

0.4.1 Standards of Weights and Measures Act, 1976 also stipulates use of SI Units.

1. SCOPE

1.1 This standard prescribes the constructional details and other particulars of two varieties of dyed cotton lining cloth. If agreed, man-made fibres may be blended with cotton.

1.2 This standard does not specify the general appearance, feel, shade, etc, of the cloth (*see also 3.3*).

*Specification for lining cloth (warp faced satin), dyed.

†Rules for rounding off numerical values (*revised*).
