Indian Standard

HELICAL COMPRESSION SPRINGS
PART II SPECIFICATION FOR COLD COILED SPRINGS MADE
FROM CIRCULAR SECTION WIRE AND BAR

1. Scope — Covers cold coiled compression springs made from spring wires of up to 17 mm diameter. **1.1** This standard is applicable to springs having the following parameters:

- a) Mean coil diameter; D_m , up to 200 mm,
- b) Unloaded length; L_0 up to 630 mm,
- c) Number of working coils: $I_1 \geq 2$, and
- d) Coil ratio; w from 4 up to 20,
