Indian Standard

GUIDELINES FOR PREPARATION OF TECHNICAL REPORTS

PART II FEASIBILITY REPORTS

FOREWORD

0.1 This Indian Standard (Part II) was adopted by the Indian Standards Institution on 24 March 1982, after the draft finalized by the Publication and Graphic Technology Sectional committee had been approved by the Executive Committee.

0.2 Technical reports form one of the most valuable sources of information for research, industry and management. Based on their contents, technical reports may be broadly categorized as research and development reports, feasibility reports, and such like documents. There is a need for providing guidelines for preparation and presentation of various elements of information to increase the effectiveness and utility of these reports.

1. SCOPE

1.1 This standard (Part II) provides guidelines for the presentation of information in and production of feasibility reports.
