

Indian Standard

QUALITY MANAGEMENT SYSTEMS — GUIDELINES FOR QUALITY MANAGEMENT IN PROJECTS

(First Revision)

1 Scope

This international Standard gives guidance on the application of quality management in projects

It is applicable to projects of varying complexity, small or large, of short or long duration, in different environments, and irrespective of the kind of product or process involved. This can necessitate some tailoring of the guidance to suit a particular project.

This International Standard is not a guide to “project management” itself. Guidance on quality in project management processes is discussed in this International Standard. Guidance on quality in a project’s product related processes, and on the “process approach”, is covered in ISO 9004.

Since this International Standard is a guidance document, it is not intended to be used for certification/registration purposes

2 Normative references

The following referenced documents relate to the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

ISO 9000:2000, *Quality management systems — Fundamentals and vocabulary*

ISO 9004: 2000, *Quality management systems — Guidelines for performance improvements*

NOTE The Bibliography contains additional references applicable to quality management in projects.
