

## ***Indian Standard***

# **QUALITY MANAGEMENT SYSTEMS — GUIDELINES FOR CONFIGURATION MANAGEMENT**

## ***(First Revision)***

### **1 Scope**

This International Standard gives guidance on the use of configuration management within an organization. It is applicable to the support of products from concept to disposal.

It first outlines the responsibilities and authorities before describing the configuration management process that includes configuration management planning, configuration identification, change control, configuration status accounting and configuration audit.

Since this International Standard is a guidance document, it is not intended to be used for certification/registration purposes.

### **2 Normative references**

The following referenced documents relate to the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

ISO 9000:2000, *Quality management systems — Fundamentals and vocabulary*
