FORMAT FOR SYNOPSIS OF INDIAN STANDARDS

Number and Title of the Indian Standard:	IS/ISO 12632: 2015 Graphic Technology – Ink, Paper and Lables – Requirements on Hot Alkali Penetration and Resistance MSD 06 (12814)
a) Scope b) Salient features of content:	This Standard specifies test methods for — penetrability and removal times of labels that have been wet glued on bottles intended to be refilled and reused, and — resistance of printed labels against hot alkaline solution. Test results always deal with systems comprising of substrates, ink films and varnish films if present. This Standard is valid for label substrates and printed labels. Label substrates include metalized papers. The test procedures are also valid for the evaluation of inks and papers to be used in printing labels. This Standard does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this Standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
c) Type/grades/classes, if any covered in the standard:	Not Applicable
d) disclaimer (to be automatically provided by the program/software)
